

Association of Fish & Wildlife Agencies Survey

The Association of Fish & Wildlife Agencies (AFWA) has contracted with Southwick & Associates to conduct their trapping survey this year. This survey occurs every ten years, and participants are randomly selected by AFWA from information provided by the North Dakota Game & Fish Department (i.e. trapping or combination license holders). The survey provides important information about the outdoor activities in which trappers participate. If you are lucky and receive one, please take the time to complete and return the survey. Many members have contacted me saying they received a survey, and it took about 10 minutes to complete.

Regarding surveys, the timing for the North Dakota Game & Fish Department furbearer survey was about the same. If you have received this survey, please take the time to complete and return it. Again, very important information.
